

MIGHTY RAT USB

Interfaces between a PC or Mac Computer and Cue King or Rx1 RF Receiver. Enables Slide advancement via Left Arrow / Right Arrow Keyboard Commands.

LED Trigger Pulse Indicators

Red LED illuminates upon receipt of Reverse Trigger Pulse from a Cue King.

Green LED illuminates upon receipt of Forward Trigger Pulse.

USB Connector

Connect to USB Port on PC or Macintosh. Computer will immediately enable Mighty Rat as a second keyboard, and there are no special drivers required.

XLR Connector

Plugs into the Mouse Outputs on Cue King REV1 to give **Forward and Reverse operation.**

Also plugs into the Mouse Outputs on Cue King R1/R1b or RX1 RF Receiver to give **Forward operation only.**

This line can be extended with over 200 metres of mic cable if required.
